ON
GREEN CAMPUS INITIATIVES

Introduction: Consciousness towards the conservation and preservation of the environment and attempts to help it sustain is a pressing need of time. The institution assumes that it is its duty to inculcate this consciousness among students through various efforts. Naturally it gets reflected in the objectives and quality policy of the institution.

Shri Venkatesh Mahavidyalaya, Ichalkaranji is located at the heart of the city. It is surrounded by the parent institution's other educational buildings. Due to its central location and infrastructural limitations the institution has limited possibilities to take initiatives regarding the greening of the campus. However, conscious attempts are made to inculcate awareness about several other issues that have been threatening the environment of the earth. In accordance with it the following policies are framed in the institution:

Green Campus Initiative Policy Statement:

- 1) Inauguration of all college programmes by watering the plants as a metaphoric gesture of saving trees
- 2) Felicitation of guests by offering a book and Annual Report of College instead of flower /bouquet
- 3) Celebration of International Environment Day
- 4) Classroom activities based on environmental issues integrated in the curriculum
- 5) Display of the Announcement of Ban on Use of Plastic
- 6) Invited Guest Lectures to create consciousness about environmental issues
- 7) Tree plantation Activity
- 8) Landscaping with plants and trees
- 9) Reuse of waste papers
- 10) Initiatives to make less use of paper and encouragement for e-communication
- 11) Rain Water harvesting

Document on Environmental Consciousness and Sustainability

Introduction: Shri Venkatesh Mahavidyalaya is located at the heart of Ichalkaranji. The city is known for its textile industry. The sizing and dyeing are the major occupations in the city. Due to this industry based location there is a dire need of creating environmental consciousness and need of sustaining it among the stakeholders. In this regard the institution has taken several initiatives to create environmental consciousness. It works to find alternative sources of energy to save the conventional energy means and proceeds to sustain environment by initiatives towards green campus. Awareness about the sources of water and their sustainability are some of the other concerns as part of environmental ecosystem and preserving and keeping them clean have been considered essential. Alike the steps are also taken to manage various types of wastes so as to save environment from hazardous elements. Following are some of the measures taken by the institution in this regard:

(A) Alternate sources of energy:

- **The Energy Audit** has been conducted by the certified agency. The conventional tube lights are replaced by LED bulbs and tubes.
- **Every day maintenance of electric gadgets:** The lights, fans, projectors and other such electrical devices are switched off after use and students are made aware of using them appropriately.
- **Maintenance of electric devices:** The attendants and peons are shouldered floor wise responsibility of switching on and or off these electrical equipment after working hours.
- **Call for Technician:** Technician is invited for immediate repairing of such devices whenever necessary so as to make optimal utilization of the available resources and reduce excess consumption of the electricity.

(B) Waste Management of gradable and non-gradable waste:

- **Solid Waste Management:** The dustbins at every floor and in the premises are kept to maintain cleanliness. The day to-day wet and dry garbage is cleaned and collected into separate color dustbins and is handed over to the municipal corporation that runs a garbage collection vehicle.
- **Liquid waste management:** The drainage pipes of the waste water are connected to the Municipal Corporation sewage system. The regular maintenance is kept to avoid the harm to the stakeholders and environment.
- **E-waste management:** The e- waste that includes the dead stock of the various electronic gadgets and devices are handed over to the authorized vendor for its dismantling or recycling as per requirement. The hazardous e wastage is removed and regular maintenance of the e-goods and products is done.

(C) Green Campus Initiatives:

- **Green audit and Environment Audits** have been conducted by the certified agency.
- Inauguration of all college programs by watering the plants as a metaphoric gesture of saving trees
- Felicitation of guests by offering a book and Annual Report of College instead of flower /bouquet
- Celebration of International Environment Day

- Classroom activities based on environmental issues integrated in the curriculum
- Display of the Announcement of Ban on Use of Plastic
- Invited Guest Lectures to create consciousness about environmental issues
- Tree plantation Activity
- Landscaping with plants and trees
- Reuse of waste papers
- Initiatives to make less use of paper and encouragement for e-communication
- Regular management of e-wastage through vendor
- Observation of No Vehicle Day

(D) Water Conservation Initiatives:

- Rain Water harvesting
- Bore well
- Maintenance of water bodies and distribution system in the campus

(E) Promotional Activities for Environment Awareness in the community:

- Students are encouraged to participate in the awareness programs related to environmental issues and cleanliness. They are actively involved in the awareness programs conducted in the locality. Students accompany the municipal corporation team as the volunteers at the time of Ganesh festival and encourage people to donate Ganesh idols instead of immersing them into river bodies or other water sources.
- The streams or lakes in the vicinity that are getting polluted and turning harmful for health of the citizens are cleaned by the students.
- Students create awareness against pouring of Nirmalya (flowers offered to idols at the time of worship) into riverbeds
- Research initiatives are also taken to find impact of handloom/ auto loom industry on the health of citizens and results are published in the form of project work.

3.3 INSTITUTE IN PROCESS TOWARDS ENERGY CONSERVATION

- Step by step replacing the 40 Watt i.e. T12 Fluorescent Tube Lights in the class rooms and Laboratory rooms and using 20W LED which gives almost same luminous flux.
- Replacing the 80W ceiling fan in class rooms and laboratories by energy efficient fans of 35 w is much help to save the energy.

4.0 SCOPE OF WORK:

1. Detailed examination of the existing energy uses of the facility.
2. Measurement and analysis of demand and power factor, energy meter to reduce the energy bill.
3. Detailed examination of lighting system and other electrical equipment in laboratory and class rooms.
4. Survey report of lighting system in overall institute.

5.2 SAVING POTENTIAL CALCULATION IN EACH CLASS ROOM AND LABORATORY:

Assumptions: - Working hours of class room, laboratory and office = Approx.6hrs
Unit for institute energy bill = Approx. Rs.12.11 / kwh

Specimen calculation for BBA Staff room.

1) BBA Staff Room

Sr.no	Particulars	Wattage	Quantity	Run Time (Hr/Day)	Total wattage	Watt Hours/Day	Energy consumed per day kWh/day	Recommendation

Total					460	2760	2.76	

Specimen calculation for tube set :- Energy consumption of conventional tube light set :- 40Watt capacity tube set used for 6hrs per day so unit consumed by tube is $\frac{40\text{Watt} \times 6\text{hr}}{1000} = 0.24\text{kwh}$ per day and monthly unit consumed by tube set = 0.24×30 days = 7.2kwh / month. Energy consumption of one tube in terms of rupees = 7.2kwh x Rs.12.11 = Rs.87.19

Specimen calculation for Fan :- A old fan capacity is 80W and used for 6 hrs. day so unit consumed by fan is $\frac{80\text{Watt} \times 6\text{hr}}{1000} = 0.48$ kwh per day and monthly unit consumed by fan = 0.48×30 days = 14.4 kwh / month. Energy consumption of fan in terms of Rs. = 14.4 kwh x Rs.12.11 = Rs.174.38.

Computer Lab has one old ceiling fan. So monthly expenditure due to fan is Rs.174.38

If old fan will have replaced by new energy efficient (BEE star rating) it will consume energy Rs. 83.16 for one month.

A typical desktop computer uses about up to 250 watts and 20-40 watts for an LCD monitor and don't forget related devices like cable modem uses 7 watts, D-Link DI-604 router uses 4.5 watts,

To calculate your costs, use this formula:

$$\frac{\text{Watts} \times \text{Hours Used}}{1000} \times \text{Cost per kilowatt-hour} = \text{Total Cost}$$

One LCD computer consumes 1.5Kwh (Unit) per day i.e. 9Rs. Per day (300 W x 5 hrs.)

Old version computer consumes 2.5kwh(unit) per day i.e.15Rs. per day (500 W x5hrs)

Institute has 94 numbers of computer sets.

6.0 CONCLUSIONS AND GENERAL RECOMMENDATION OF THE AUDIT

- a) Replace conventional tube light fittings of 40W with T-5 LED Tube light for 400 – 500 lumens light efficacy. Replace 80 W old fan by energy efficient fans.
- b) Replace old version computer system with energy efficient LCD monitor and new generation energy efficient computer systems.
- c) Ensure maximum natural day light and natural ventilation in class rooms, Labs and staff rooms i.e. when it's bright outside in the daytime, turn off the light and open blinds of windows.
- d) In fact, try to turn on lights in our cabin, labs only after the sun sets. Do your reading and writing near a window or natural illumination.
- e) Installing occupancy sensors to turn ON-OFF lighting and fan can save considerable energy.
- f) Overhead projectors, computers and UPS all use electricity for power. Be sure to unplug these types of items when they're not in use can achieve energy saving considerably.
- g) Use power "saving option" (hibernate mode) for computer and possibly switched off when not in use.
- h) Consider planting trees and shrubs in strategic locations to help to reduce the temperature and airflow in Laboratory, classroom etc. Trees planted on the west and south sides of buildings help to keep the buildings shaded during hotter weather.

EVENT REPORT-2018-19

राष्ट्रीय सेवा योजना

राष्ट्रीय सेवा योजना हि योजना माझ्यासाठी नव्हे आपणासाठी आहे. भारत हा सर्वात अधिक युवक असलेला देश आहे, विविध भाषा आणि संस्कृती असलेला हा खंडप्राय देश आहे. या देशाची प्रगती होण्यासाठी युवकांची मदत घेणे अनिवार्य वाटल्याने केंद्र सरकारमार्फत राष्ट्रीय सेवा योजनाची स्थापना करण्यात आली. या योजनेअंतर्गत कॅम्पस स्वच्छता, क्रिडागण तयार करणे, निरक्षरता निर्मुलन, पर्यावरण संवर्धन, आपत्ती व्यवस्थापन, व्यसनमुक्ती उपक्रम, जलसंवर्धन, माहिती अधिकार इ. उपक्रम राबविले जातात.

महाविद्यालयातील राष्ट्रीय सेवा योजनेच्या वतीने सन २०१८-२०१९ या सालात खालील नियमित कार्यक्रम घेण्यात आले. महाविद्यालयाचे प्राचार्य डॉ. व्ही. ए. माने यांचे सहकार्य व मार्गदर्शन मिळाले. तसेच राष्ट्रीय सेवा योजना विभागाचे सदस्य प्रा. ए. के. गानबावले, श्री. आर. आर. पाटील, डॉ. सौ. एस. एच. आबवडे व प्रशासकीय वर्ग सौ. एस. टी. बिरंजे, डॉ. डी. एस. कांबळे यांचे सहकार्य लाभले.

१७ सप्टेंबर २०१८ घरगुती गणपती विसर्जनाच्या दिवशी निर्माल्य नदीत टाकू नये आणि गणपती दान करणे विषयी नागरिकांचे प्रबोधन करणेचे कार्यक्रम पंचगंगा घाटावर घेण्यात आला.
